

Fork

With a curved double self-supporting easel structure and beveled table top, Fork is the a powerful combination of elegance and modernity.

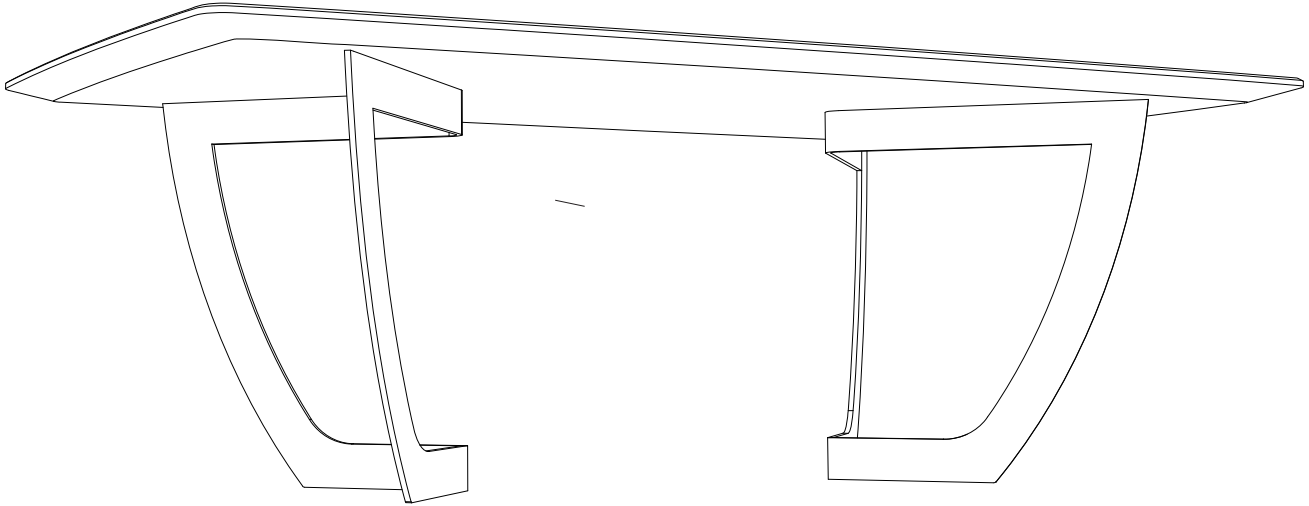

The table top is available in several kinds of wood finishes and natural stones.

The most advanced techniques in metal folding allow for the creation of incredibly light yet sturdy supports that are connected directly to the bottom of the table top.

The 2 easels can be stacked to significantly reduce the shipping volume.

Light, flexible, elegant, Fork is a fresh and sleek addition to the living space.
